

# *TechnoScope F32*

The *TechnoScope F32* is the latest addition to our award-winning fleet of lightweight telescopic camera cranes. The *F32* is specifically designed to capture highly complex, graceful, and extended sweeping shots with ease and precision. Its portability and versatile design allow for effortless handling and transportation to different locations, quick setup, highly effective and user-friendly control, providing an impressive operational experience. The *F32* is an invaluable tool that enhances storytelling and offers filmmakers a wide range of creative possibilities. Thanks to its lightweight design, maneuvering the crane is exceptionally comfortable, effortless, and efficient.

- Adapter for All Popular Lightweight Stabilized Heads
- Intuitive and Ergonomic Controller
- Innovative Carbon Fiber Design
- Lightweight Portable Elements
- Arc Compensation / Wall Mode
- Pneumatic Wheels / Track Wheels
- Compact Size and Small Footprint
- Telescopic Column
- Battery Powered
